**Immediate Release**

**Hudson County Board of Commissioners approved the County of Hudson to apply for \$1,005,510 from the New Jersey Department of Transportation for improvements to Duncan Avenue between Route 1&9 Truck and Hackensack River, in the City of Jersey City under the BIKEWAY Grant PROGRAM**

**Jersey City-**The Hudson County Board of Commissioners approved the County of Hudson to apply for \$1,005,510 from the New Jersey Department of Transportation Bikeway grant program for improvements to Duncan Avenue between Route 1&9 Truck and Hackensack River. This will promote bicycling as an alternate mode of transportation in Hudson County.

The needed upgrades would ensure cyclists' safety on Route 1&9 Truck and Hackensack River. The scope of the work will replace existing unprotected bike lanes and sharrows with protected/buffered green surface treatment bike lanes throughout the corridor's focus area wherever feasible. The intent is to upgrade the existing narrow bike lanes and sharrow markings to a protected or buffered bike lane, with little impact to existing travel lanes.

Board Chairman Anthony Romano, Commissioner Bill Odea and the rest of the Board of Commissioners are committed in their resolve to make Jersey City a safe place for bicyclist, pedestrians, and motorist. The improvements will serve as a safer

bikeway connection to access neighboring public facilities.
