2017 Short-Term Program Goals

List at least three goals to improve your system in grant year 2017. Include Milestones on how you will obtain these goals.

1. In 2017, we are planning to procure ten new minibuses that will accommodate ten passengers and two wheelchairs. The funding to support the purchase of these vehicles will be derived from SCDRTAP funding and Hudson County.
2. We have submitted a request, in the 2015- 5310 application, mobility management funds to purchase an Interactive Voice Response Telephone System (IVR). This IVR system will simplify the trip scheduling process by eliminating the need for clients to call the Transcend office the day before their scheduled trip to find out their pick up time. This system will telephonically call all clients scheduled for a trip, notify them of their pick up time and enable them to confirm or cancel the trip. This will reduce the daily number of calls to our office from 250 to 200, provide early notification of cancellations and should reduce the number of no shows. With the reduction of phone calls and early notification of trip cancellations we will have the ability to serve clients previously denied a trip. In 2015 we recorded 5,425 no shows. The possible IVR upgrade will provide cost savings, greater efficiency by reducing no show appointments.
3. We would like to update our routing and scheduling software with Routematch's real time optimization module. This will assist with the anticipated increase in demand for next day and same day service as a result of the implementation of the IVR in 2017. With this optimization module we will be able to provide additional same day service to maximize occupancy on our vehicles.

Special Section 5333(b)

The attached Special Warranty and the procedures incorporated therein represent the understandings of the Department of Labor and the Department of Transportation with respect to the formula Grant Program for Areas Other Than Urbanized Areas (C.F.R. U.S.C. Section 5311)

The Department of Transportation will make this Special Warranty a part of the contract of assistance between the U. S. Department of Transportation and each state agency designated to receive and administer funds under Section 5311 of the Urban Mass Transportation Act of 1964, as amended.

The Secretary of Labor has found that the terms and conditions of the Special Warranty meet the requirements of Section 5333(b) of the Urban Mass Transportation Act of 1964, as amended. Accordingly, the Secretary of Labor hereby makes the certification that inclusion of these terms and conditions in formula grant contract for small urban and rural program grants meets the requirements of Section 5311 of the Urban Mass Transportation Act of 1964, as amended.

A. General Application

The Public Body (A) agrees that, in the absence of waiver by the Department of Labor, the terms and conditions of this warranty, as set forth below, shall apply for the protection of the transportation related employees of any employer providing transportation services assisted by the Project (Recipient), and the transportation related employees of any other surface public transportation providers in the transportation service area of the project.

The Public Body shall provide to the Department of Labor and maintain at all times during the Project an accurate, up-to-date listing of all existing transportation providers which are eligible Recipients of transportation assistance funded by the Project, in the transportation service area of the Project, and any labor organizations representing the employees of such providers.

Certification by the Public Body to the Department of Labor that the designated Recipients have indicated in writing acceptance of the terms and conditions of the warranty arrangement will be sufficient to permit the flow of Section 5311 funding in the absence of a finding of non-compliance by the Department of Labor.

B. Standard Terms and Conditions

The Project shall be carried out in such a manner and upon such terms and conditions as will not adversely affect employees of the Recipient and of any other surface public transportation provider in the transportation service area of the Project. It shall be an obligation of the Recipient and any other legally responsible party designated by the Public Body to assure that any and all transportation services assisted by the Project are contracted for and operated in such a manner that they do not impair the rights and interest of affected employees. The term a Project, as used herein, shall not be limited to the particular facility, service, or operation assisted by Federal funds, but shall include any changes, whether organizational, operational, technological, or otherwise, which are a result of the assistance provided. The phrase "as a result of the Project," shall when used in this arrangement, include events related to the Project occurring in anticipation of, during, and subsequent to the Project and any program of efficiencies or economies related thereto; provided, however, that volume rises and falls of business, or changes in volume and character of employment brought about by causes other than the Project (including any economies or efficiencies unrelated to the Project) are not within the purview of this arrangement.

An employee covered by this arrangement, who is not dismissed, displaced or otherwise worsened in his position with regard to his employment as a result of the Project, but who is dismissed, displaced or otherwise worsened solely because of the total or partial termination of the Project, discontinuance of Project services, or exhaustion of Project funding shall not be deemed eligible for a dismissal or

displacement allowance within the meaning of paragraphs (6) and (7) of the Model agreement or applicable provisions of substitute comparable arrangements.

- (a) Where employees of a Recipient are represented for collective bargaining purposes, all Project services provided by that Recipient shall be provided under an in accordance with any collective bargaining agreement applicable to such employees which is then in effect.
- (b) The Recipient or legally responsible party shall provide to all affected employees sixty (60) days notice of intended actions which may result in displacements or dismissal or rearrangements of the working forces. In the case of employees represent by a union, such notice shall be provided by certified mail through their representatives. The notice shall contain a full and adequate statement of the proposed changes, and an estimate of the number of employees affected by the intended changes, and the number and classifications of any jobs in the Recipient=s employment available to be filled by such affected employees
- (c) The procedures of this subparagraph shall apply to cases where notices involve employees represented by a union for collective bargaining purposes. At the request of either the Recipient or the representatives of such employees' negotiations for the purposes of reaching agreement with respect to the application of the terms and conditions of this arrangement shall commence immediately. If no agreement is reached within twenty (20) days from the commencement of negotiations, any party to the dispute may submit the paragraph (4) of this warranty. The foregoing procedures shall be complied with and carried out prior to the institution of the intended action.

For the purpose of providing the statutory required protections including those specifically mandated by Section 5333(b) of the Act, the Public Body will assure as a condition of the release of funds that the Recipient agrees to be bound by the terms and conditions of the National (Model) Section 5333(b) Agreement executed July 23, 1975, identified below², provided that other comparable agreements may be substituted therefore, if approved by the Secretary of Labor and certified for inclusion in these conditions.

Any dispute or controversy arising regarding the application, interpretation, or enforcement of any of the provisions of this arrangement which cannot be settled by and between the parties at interest within thirty (3) days after the dispute or controversy first arises, may be referred by any such party to any final and binding disputes settlement procedure acceptable to the parties, or in the event they cannot agree upon such procedure, to the Department of Labor or an impartial third party designated by the Department of Labor for final and binding determination. The compensation and expenses of the impartial third party, and any other jointly incurred expenses shall be borne equally by the parties to the proceeding and all other expenses shall be paid by the party incurring them.

In the event of any dispute as to whether or not a particular employee was affected by the Project, it shall be his obligation to identify the Project and specify the pertinent facts of the Project relied upon. It shall then be the burden of either the Recipient or other party legally responsible for the application of these conditions to prove that factors other than the Project affected the employees. The claiming employee shall prevail if it is established that the Project had an effect upon the employee even if other factors may also have affected the employee.

The Recipient or other legally responsible party designated by the Public Body will be financially responsible for the application of these conditions and will make the necessary arrangements so that any employee covered by these arrangements, or the union representative of such employee, may file claim of violation of these arrangements with the Recipient within sixty (60) days of the date he is terminated or laid off as a result of the Project, or within eighteen (5311) months of the date his position with respect to his employment is otherwise worsened as a result of the Project. In the latter case, if the events giving rise to the claim have occurred over an extended period, the 18-month limitation shall be measured from the last such event. No benefits shall be payable for any period prior to six (6) months from the date of the filing of any claim.

Nothing in this arrangement shall be construed as depriving any employee of any rights or benefits

which such employee may have under existing employment or collective bargaining agreements, nor shall this arrangement be deemed a waiver of any rights of any union or of any represented employee derived from any other agreement or provision of federal, state or local law.

In the event any employee covered by these arrangements is terminated or laid off as a result of the Project, he shall be granted priority of employment or reemployment to fill any vacant position within the control of the Recipient for which he is, or by training or retraining within a reasonable period can become qualified. In the event training or retraining is required by such employment or reemployment, the Recipient or other legally responsible party designated by the Public Body shall provide, or provide for, such training or retraining at no cost to the employee.

The Recipient will post, in a prominent and accessible place, a notice stating that the Recipient has received federal assistance under the Urban Mass Transportation Act and has agreed to comply with the provisions of Section 5333(b) of the Act. This notice shall also specify the terms and conditions set forth herein for the protection of employees. The Recipient shall maintain and keep on file all relevant books and records in sufficient details as to provide the basic information necessary to the proper application, administration, and enforcement of these arrangements and to the proper determination of any claims arising thereunder.

Any labor organization which is the collective bargaining representative of employees covered by these arrangements, may become a party to these arrangements by serving written notice of its desire to do so upon the Recipient and the Department of Labor. In the event of any disagreement that such labor organization represents covered employees, or is otherwise eligible to become a party to these arrangements, as applied to the Project, the dispute as to whether such organization shall participate shall be determined by the Secretary of Labor.

In the event the Project is approved for assistance under the Act, the foregoing terms and conditions shall be made part of the contract of assistance between the federal government and the Public Body or Recipient of federal funds; provided, however, that this arrangement shall not merge into the contract of assistance, but shall be independently binding and enforceable by and upon the parties thereto, and by any covered employee or his representative, in accordance with its terms, nor shall any other employee protective agreement merge into this arrangement, but each shall be independently binding and enforceable by and upon the parties thereto, in accordance with its terms.

C. Waiver

As a part of the grant approval process, either the recipient or other legally responsible party designated by the Public Body may in writing seek from the Secretary of Labor a waiver of the statutory required protections. The Secretary will waive these protections in cases, where at the time of the requested waivers, the Secretary determines that there are no employees of the Recipient or of any other surface public transportation providers in the transportation services area who could be potentially affected by the Project. A 30-day notice of proposed waiver will be given by the Department of Labor and in the absence of timely objection; the waiver will become final at the end of the 30-day notice period. In the event of timely objection, the Department of Labor will review the matter and determine whether a waiver shall be granted. In the absence of waiver, these protections shall apply to the Project.
