## **Disclaimer**

Despite our research, the Division on Aging Services does not purport this guide to be exhaustive in identifying all relevant senior service organizations in Hudson County. Other organizations performing similar services to those included herein may be located in the community. Thus, readers looking for services are encouraged to search other sources as well. If you are, or know of, an organization who would like to be included in the next edition of *The Directory*, feel free to contact our office.

Additionally, we note that many of the organizations identified in this guide were found through a variety of sources such that the Division on Aging Services may not have direct knowledge of each organization listed. Thus, the inclusion of an organization in this guide does not necessarily represent an endorsement of the organization or any of its services.

Finally, despite our efforts, we know that errors can occur in developing a guide and that information can become outdated the moment a guide is printed. We invite you to call and inform us should you find any error within this document. We will place additions and corrections in our office copies to be sure we have corrected data for those who contact us and for future editions of *The Directory*.

## **The In-Home Care Process**

***Managed Long Term Services and Supports (MLTSS)***: Medicaid Waiver program for long-term care coordination services based on specific State eligibility and determination requirements.

***Jersey Assistance for Community Caregiving (JACC)***: state and locally funded long-term care management programs for those who desire a plan of care based on need.

Consumers are assigned a qualified care manager, either provided by the local Area Agency on Aging, or the NJ Family Care provider. Each participant receives an individual assessment via their care manager. Participants are put on a path to receive eligible services based on meeting specific financial criteria.

Individuals may contact their local or State Area Agency on Aging to find out about service options through JACC or MLTSS. The care managers will work with the senior and/or caregiver to create an individualized plan of care to help the senior remain in their home for as long as possible. Participants have the option to hire and direct their own service providers should they choose.
