

SECAUCUS
HUDSON COUNTY, NJ

COUNTY AVENUE

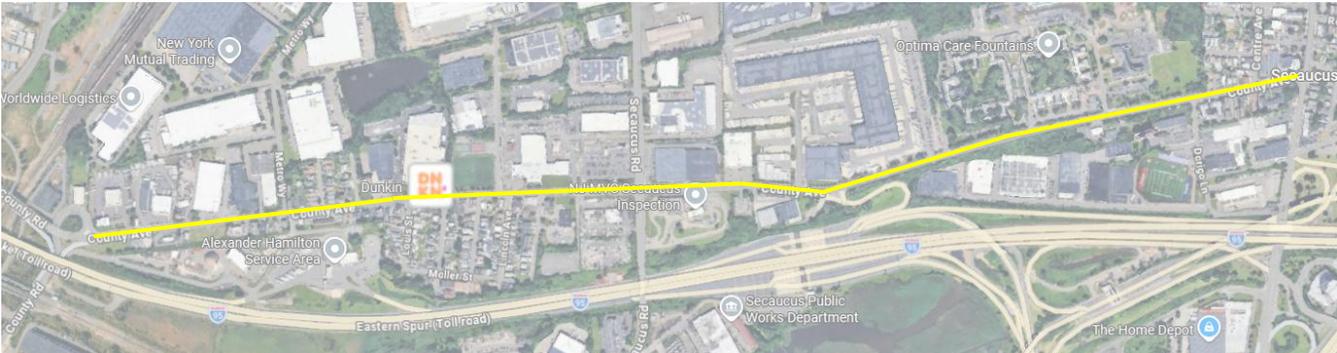

PATERSON PLANK ROAD TO PAUL AMICO WAY/
COUNTY ROAD

ABOUT THE PROJECT – COUNTY AVENUE ROADWAY IMPROVEMENTS

Hudson County aims to improve vehicular and pedestrian safety along County Avenue from Paterson Plank Road to Amico Way/County Road egress and ingress ramps in Secaucus. The goal is to improve safety while minimizing impacts to the environment, access, right-of-way, utilities, and aesthetics along this segment of the roadway.

Safety Improvements along the project corridor will include:

- Roadway resurfacing
- Restriping
- ADA-compliant curb ramps
- Traffic signal upgrades
- Drainage improvements
- Compliance with current NJDEP stormwater standards & regulations
- Upgrades to guiderails
- Inclusive of rumble strips
- Spot repair of curb & sidewalk

Project Background
This segment of County Avenue currently warrants improvements of outdated traffic signals, curb ramps, pedestrian signal heads, and push buttons. Additionally, the County anticipates increased traffic volumes and freight activity on County Avenue due to NJDOT’s planned Route 1&9 Truck connection between St. Paul’s Avenue and Secaucus Road.

Anticipated Project Schedule

Completion of 30% Design Plans	April 2026
Public Information Center (PIC)	April 2026
Completion of 60% Design Plans	June 2026
Environmental Review	June 2026
Final Design	June 2026
Construction	Summer/Fall 2026
